CARTRIDGE INSTRUCTIONS

CASTLE

The Official

You control a ship that fires at a cannon surrounded by three oppositely rotating energy rings of twelve segments each. When a clear line of fire is open, the cannon fires back at your ship, with a big "fuzzball". Three sparks start off on the rings, but eventually fly loose and chase the player's ship.

Use your ColecoVision[®] controller or Super Action[™] controllers.

GETTING READY TO PLAY

NOTE: For a one-player game, use the controller in Port 1. For a two-player game, Player 1 uses the controller in Port 1; Player 2 uses the controller in Port 2.

1. **Keypad:** Keypad Buttons 1-8 allow you to select a Game Option before beginning to play. Pressing a red, yellow or blue button (1, 2 or 3) shown on the overlay opens or closes all doors of that color. Pressing the green button (5) changes your mouse into a dog. Pressing * after a game allows you to replay the same Game Option; pressing # after a game allows you to return to the Game Option screen.
2. **Control Stick:** Pushing the Control Stick left, right, up or down causes the mouse or dog to move in that direction.

* **ALWAYS MAKE SURE COLECOVISION™ UNIT IS OFF BEFORE INSERTING OR REMOVING A CARTRIDGE.** Turn Off/On switch to On after cartridge is inserted.

HERE'S HOW TO PLAY

STEP 1: The choice is yours.

Press the Reset Button and the title screen will appear on your TV. Wait for the Game Option screen to appear. This screen contains a list of game play options. Select one by pressing the corresponding number button on either controller keypad.

STEP 2: The race is on!

After you select a Game Option, the first of your three mice appears in the maze. Move through the maze, trying to eat all

When playing games at Skills 2, 3 and 4, beware of the hawk that flies out to catch you. Enter the "IN" box to escape to one of the maze corners and confuse the hawk.

Press * to replay the Game Option that you have been playing. Press # to go back to the Game Option screen.

NOTE: The Reset Button on the console "clears" the computer. It can be used to start a new game at any time, and can also be used in the event of game malfunction.
