

The Schedule of Events for ADAMCon 15

The following schedule is still tentative. I'm open to comment, screams of protest, and all other forms of input.

Some presenters are still pondering their subject material, so stay tuned. The following table will be updated as new information comes in. If you find I've got you down for something you didn't agree to, we'll change it.

A note re Saturday afternoon:

We do have sessions scheduled, but. that may change, particularly if the weather happens to be good. There are places to see around here, including a rather breathtaking view of the Comox Valley from about 6200 feet up. We can drive there in less than an hour. If clouds over Mt. Washington prevent us from doing that, there's the a tour of the waterfront with much to offer that can be done in a couple of hours. Let's leave Saturday afternoon scheduled, but flexible.
