Dinosaurs into the new Millenium

Well, things are heating up. The AdamCon is a few short months away and the excitement is building. The location of the AdamCon is to be the Howard Johnston Triumph Hotel in Toronto near the Yorkdale Shopping Mall at Keele and 401.

Our convention comittee has met and decided that this is too good an opportunity to miss choosing a theme. This year's theme is "Dinosaurs into the new Millenium." We hope to suport that with our mascot the pink dinosaur.

During the convention we are planning on having a wide array of session including a hands on lab. Also AdamCon is your chance to pick up accessories, replacement parts and trivia about the Adam.
